INTRODUCTION

The Hospital

Aligarh is well known for one of the prestigious Eye Hospital in India. Dr. Mohan Lal Memorial Gandhi Eye Hospital as it is known was established in 1928 by Padam Shri Dr. Mohan Lal who had the spirit behind starting the optometry and Orthoptics education in India & Situated in the heart of city just walking distance from railway station & Bus Stand. Aligarh is located on main Delhi Howrah Railway line and G.T. Road, it is 130 kms. away from Delhi.

SCHOOL COURSES

1. Diploma in Optometry

The Course of Diploma in Optometry was Started in 1958 at Gandhi Eye Hospital, Aligarh. This is the first school in India for imparting training in Optometry with the Affiliation of State Medical Faculty Lucknow.

Optometry embraces the various aspects of optical practice viz. evaluation of the visual status of the eyes including any anomalies present. In last forty years the profession of Optometry throughout the world has made great strides and today an optometrist in the institution works in association with the ophthalmologist . The Curriculum in the world all over includes the diagnosis of ocular ailments. The optometrist should be competent in analyzing the visual problems, investigation and treatment as far as optical correction is required. This includes prescription of glasses of all types, dispensing of contact lenses and analysis of binocular function and visual field chartings etc. The two years course was designed for the students to be efficient in refraction, dispensing of glasses and investigation of ocular ailments.

2. Diploma in Orthoptics

This Course was started in 1962, Gandhi Eye Hospital has unique distinction of having one of the best equipped orthoptics Department in the country where proper facilities of teaching and training by well qualified staff exist.

The Subject of orthoptics deals with the investigations of all aspects of eyes which develop squint or have tendency to deviate with regard to Maintenance of normal binocular functions and their management.

Being the main subject of orthoptics, the students are also trained in refraction and introduced to diagnosis and treatment of common eye ailments. Modern life has led to great stress and strain on human eyes which often result in disturbance of binocular functions and it is on this account the orthoptics has gained its importance and its scope is on the rise. First Year Course is common to both the courses. In second year students separate out for specific training in Optometry or Orthoptics.

The Diploma courses in optometry and orthoptics are full time two year courses. The examination for both the courses are conducted by the U.P. State Medical Faculty, Lucknow.

3. BRIDGE COURSE

This course of one year duration was started in February 2009 by State Medical Faculty, Lucknow. Those students who have passed Diploma in Orthoptics from a recognized institution are eligible for admission - in bridge course, for diploma in optometry.
